

CONTENTS

	Page
1 Fracture Energy of Plasticized Modified Epoxide Bonded to CERP and to an Aluminium Alloy	1
2 The Influence of Moisture on Adhesive Bonded Joints	15
3 Surface Topography and Viscoelastic Adhesion	29
4 The Role of Adhesion in the Friction, Wear and Lubrication of Polymers	49
5 The Electrical Resistivity of an Adhesive Joint and Its Relation to Speed of Cure	81
6 Bonding GRP with Acrylic Adhesives	93
7 Applications of Structural Adhesives in Production	119
8 The Effect of Carriers on the Environmental Stability of Adhesive Joints	133
9 Constructional Adhesives Used in the Buildings of Babylon	151
Index	157
