

CONTENTS

	Page
1. Stress Analysis : a Continuum Mechanics Approach	1
2. Stress Analysis : a Finite-Element Analysis Approach	45
3. A Fracture Mechanics Approach to the Failure of Structural Joints	83
4. Linear Viscoelastic Properties of Solid Polymers as Modelled by a Simple Epoxy	125
5. Fatigue Mechanisms in Bonded Joints	173
6. Mechanical Test Methods for Aerospace Bonding	207
7. Durability Test Methods for Aerospace Bonding	243
8. The Relationship Between Joint Durability and water Diffusion	279
9. Mechanics of Failure of Adhesive bonds Between Metals and Polyethylene and Other Polyolefins	315
10. Laboratory Testing of Rubber-to-Metal Bonds	367
Author Index	405
Subject Index	413
