

CONTENTS

	Page	
1	General Properties of Polymers Used in Adhesives and Sealants	9
2	Theories of Adhesion and Joint Strength	30
3	Some Basic Principles of Sealants	49
4	The Preparation of Substrate Surfaces in Modern Adhesive Technology	63
5	The Nature of Tack	73
6	The Transport Industries	91
7	Domestic appliances	132
8	A Adhesives in building	144
	B Sealing Compounds for Building and Construction	174
	C Hot Poured Bituminous Joint Sealants for Roads	203
9	Woodworking and the Furniture Industry	211
10	The Shoe Industry	237
11	Packaging, Paper Converting and Bookbinding	265
12	Adhesive Application Methods	289
	Index	295
