

CONTENTS

	Page
1. Introduction	1
Bibliography of general background books	16
2. Interfacial contact	18
2.1 Introduction	18
2.2 Surface Tension	18
2.3 Wetting equilibria	19
2.4 Surface and interfacial free energies	24
2.5 Kinetics of wetting	39
2.6 The Bonding operation	46
2.7 Concluding remarks	51
References	51
3. Mechanisms of adhesion	56
3.1 Introduction	56
3.2 Mechanical interlocking	57
3.3 Diffusion theory	66
3.4 Electronic theory	74
3.5 Adsorption theory	78
3.6 Concluding remarks	96
References	97
4. Surface pretreatments	101
4.1 Introduction	101
4.2 Low-energy surfaces	103
4.3 High-energy surfaces	139
4.4 Concluding remarks	163
References	164
5. Hardening of the adhesive	171
5.1 Introduction	171
5.2 Hardening by solvent of dispersing medium removal	172
5.3 Hardening by cooling	175
5.4 Hardening by chemical reaction	176
5.5 Non-hardening adhesives	185
5.6 Concluding remarks	186
References	186
6. Mechanical behaviour of adhesive joints	188
6.1 Introduction	188
6.2 Common joint designs	189
6.3 Standard test methods	194
6.4 Stresses in adhesive joints	199
6.5 Non-destructive testing	247
6.6 Concluding remarks	258
References	259
7. Fracture mechanics of adhesive joints	264
7.1 Introduction	264
7.2 Theoretical considerations	265
7.3 Experimental considerations	284

7.4	Typical values of G_c and K_c	297
7.5	Effect of joint geometry	300
7.6	Effect of rate and temperature	314
7.7	Concluding remarks	334
	References	334
8.	The service life of adhesive joints	339
8.1	Introduction	339
8.2	Fatigue	340
8.3	Environmental attack	350
8.4	Concluding remarks	398
	References	400
	Glossary	405
	Notations	405
	Abbreviations	410
	Author index	412
	Subject index	425
