

CONTENTS

	Page
PART I	
Chapter 1: Introduction	3
Chapter 2: Interactions Between Bodies	8
Chapter 3: The Functions of Adhesives	31
Chapter 4: The Properties of Surfaces and Interfaces	47
Chapter 5: Theories of Adhesion and Adhesive action	65
Chapter 6: Joints, Rigid and Flexible	96
Chapter 7: Viscoelasticity, Adhesion and Tack	126
Chapter 8: Modes of Failure	148
PART II	
Chapter 9: Materials Used in Adhesive Formulations	175
Chapter 10: Adhesives in Common Use: Composition and Formulation	184
Chapter 11: Structural Adhesives; Metal-to-Metal Adhesion	209
Chapter 12: Sealants	226
Chapter 13: Carbohydrates and Proteins as Adhesives	238
Chapter 14: Hot-Melt Adhesives	249
Chapter 15: Adhesion to Textiles	262
Chapter 16: Effect of Environment on Adhesive Performance	284
Chapter 17: Conclusion	300
References and Bibliography	303
Author Index	315
Subject Index	321
