

CONTENTS

1. Fundamentals of Plastics and Elastomers	1-1
2. Electrical Design Properties of Plastics and Elastomers	2-1
3. Mechanical Properties and Testing of Plastics and Elastomers	3-1
4. Chemical and Environmental Properties of Plastics Elastomers	4-1
5. Laminates, Reinforced Plastics, and Composites	5-1
6. Properties and End Uses for man-Made Fibers	6-1
7. Plastic and Elastomeric Foams	7-1
8. Liquid and Low-Pressur Resin Systems	8-1
9. Plastic and Elastomeric Coatings	9-1
10. Plastics and Elastomers as Adhesives	10-1
11. Commercial and Government Specifications and Standards	11-1
12. Design and Fabrication of Plastic Parts	12-1
