

CONTENTS

Advances in Fillers for Plastics	1
The Science and Potential of Micropacking	5
Glass Fillers	17
Silica-Fillers Ethylene-Vinyl Acetate Resins	25
Recent Advances in Plasticizers	39
Effect of Additives Viscosity of Filled Resins	49
Nonsilane Coupling Agents in Thermoplastics	63
Electrical, Solvent, Thermal, and Fungal Properties	81
Stabilization of Polyolefins for Weather Resistance	93
Ultraviolet Stabilization of High-Impact Polystyrene	103
Colorants for Plastics	113
Index	123
