

CONTENTS

1. Historical background	1
2. Applications of screw extruders	7
3. The different types of extruders	13
4. General features of single- and twin-screw extruders	53
5. The single-screw extruder in theory and practice	68
6. Constructional principles of single-screw extruders	108
7. Commercial single-screw extruders	243
8. Multi-screw extruders	260
9. Equipment for the extrusion of tubes and pipes	281
10. Wire and cable covering equipment	301
11. Equipment for film extrusion	319
12. Equipment for extrusion coating with polyolefines	353
13. Sheet extrusion equipment	364
14. Plant for the extrusion of monofilament and nets	376
15. The extrusion of profiles and other special products	388
16. Extruders in batch production	401
17. Extrusion equipment and its operation	412
Index	469
