

CONTENTS

SECTION I What are Reinforced Plastics?

I-1	What are Reinforced Plastics?	3
-----	-------------------------------	---

SECTION II Resins, Catalysts, Promoters

II-1	Polyester Resins	13
II-2	Phenol-Formaldehyde Resins	56
II-3	Epoxy Resins	71
II-4	Miscellaneous Resins	81

SECTION III Reinforcing Materials and Fillers

III-1	Fiber Glass as Reinforcement	117
III-2	Asbestos-Reinforced Plastics	167
III-3	Miscellaneous Reinforcements	180
III-4	Fillers	194

SECTION IV Molding Methods

IV-1	Bag-Molding Techniques	271
IV-2	Matched-Die Molding	277
IV-3	Filament Winding	292
IV-4	Continuous Panel Production	300
IV-5	Spray-Up Molding	302
IV-6	Trouble Shooting	304

SECTION V Molds and Tooling

V-1	Metal Molds	311
V-2	Plastics Molds	326
V-3	Plastics Tooling	328
V-4	Presses	356

SECTION VI Parting Agents

VI-1	Parting Agents	363
------	----------------	-----

SECTION VII Finishing Methods

VII-1	Mechanical Processing and Fasteners for R.P. (Reinforced Plastics)	381
VII-2	Bonding	402
VII-3	Surfacing	407

SECTION VIII Properties of Molded Parts

VIII-1 Mechanical Properties	419
VIII-2 Physical Properties	433

SECTION IX Design

IX-1 General Design Considerations Reinforced Plastics	475
IX-2 Specific Design Factors in Reinforced Plastics	484

SECTION X Test Methods

X-1 Introduction	555
X-2 Mechanical Test Methods	557
X-3 Electrical Methods	568
X-4 Ultrasonic Test Methods	575
X-5 Weathering Tests	581
X-6 Quality Control	582

SECTION XI Safety and Hygiene

XI-1 Safety For Plants and Materials Handling	589
XI-2 Hygiene and Safety for Personnel	606

SECTION XII Cost Accounting

XII-1 Cost Accounting	621
-----------------------	-----

Index	631
