

CONTENTS

1 Plastic and Their Appearance	11
2 General Introduction to the Analysis of Plastics	30
2.1 Analytical Procedure	30
2.2 Sample Preparation	31
3 Preliminary Tests	33
3.1 Solubility	33
3.2 Density	39
3.3 Behavior on Heating	42
4 Testing for Heteroatoms	53
5 Analytical Procedures	59
5.1 Analysis by Groups	60
6 Specific Identification Tests	65
6.1 General Identification Reactions	65
6.2 Specific Plastics	67
7 Chemicals	83
Acids and Bases	83
Inorganic Chemicals	85
Organic Solvents	86
Organic Reagents	87
Miscellaneous	88
8 Laboratory Aids and Equipment	89
Basic Equipment	89
Optional Equipment	90
Guide for Further Reading	91
Index	92
