

CONTENTS

1	Environmental Deterioration of Polymers	1
2	Stabilization against Thermal Oxidation	29
3	Thermal Degradation and Stabilization	117
4	Stabilization against Oxidative Photodegradation	159
5	Prevention of Degradation by Ozone	215
6	Protection against Ionizing Radiation	249
7	Stabilization against Burning	313
8	Stabilization against Chemical Agents	353
9	Biological Stability of Polymers	377
10	Methods for Measuring Stabilizer Effectiveness	401
	Index	437
