

**CONTENTS**

|   |     |
|---|-----|
| <b>I. MIXING MECHANISMS AND THEORY</b>                                  |     |
| 1. LAMINA MIXING OF MISCIBLE FLUIDS                                     | 1   |
| 2. A KINEMATIC APPROACH TO DISTRIBUTIVE MIXING                          | 27  |
| 3. DISPERSIVE MIXING OF SOLID ADDITIVES                                 | 55  |
| 4. MIXING OF IMMISCIBLE LIQUIDS   | 85  |
| 5. NUMBER OF PASSAGE DISTRIBUTION FUNCTIONS                             | 149 |
| <b>II. MODELING, SIMULATION, AND FLOW VISUALIZATION</b>                 |     |
| 7. FLOW FIELD ANALYSIS OF A BANBURY MIXER                               | 189 |
| 8. SCALE-UP OF INTERNAL MIXERS  | 225 |
| 9. MIXING IN SINGLE-SCREW EXTRUDERS                                     | 251 |
| 10. SIMULATION OF FLOW IN INTERMESHING TWIN-SCREW EXTRUDERS             | 331 |
| 11. FLOW ANALYSIS MODELING OF TWIN-ROTOR MIXERS                         | 373 |
| 12. MODELING OF THE COKNEADER   | 417 |
| 13. SCALE-UP OF THE MIXING PROCESS IN CONTINUOUS MIXERS                 | 457 |
| <b>III. MATERIAL CONSIDERATIONS, PROPERTIES AND CHARACTERIZATION</b>    |     |
| 14. THE PHYSICAL AND CHEMICAL NATURE OF PLASTICS ADDITIVES              | 471 |
| 15. CARBON BLACK  | 493 |
| 16. THE EFFECT OF MIXING ON SOME PROPERTIES OF COMPOUNDS AND COMPOSITES | 521 |
| 17. THE EFFECT OF CARBON BLACK DISPERSION ON RUBBER PROPERTIES          | 549 |
| <b>IV. MIXING PRACTICES</b>   |     |
| 18. INTERNAL BATCH MIXERS   | 619 |
| 19. SINGLE-SCREW EXTRUDERS  | 649 |
| 20. MIXING PRACTICES IN COROTATING TWIN-SCREW EXTRUDERS                 | 679 |
| 21. INTERMESHING TWIN-SCREW EXTRUDERS                                   | 707 |
| 22. MIXING IN RECIPROCATING EXTRUDERS                                   | 735 |
| 23. MIXING IN THE FARREL CONTINUOUS MIXER                               | 761 |
