

CONTENTS

1. Glossary	1
2. Polymer Chemistry	40
3. Engineering and Design Guide to Plastics	53
4. Injection Molding of Thermoplastics	83
5. Controls for Injection Molding Machines	120
6. Designing Molds for Injection Molding	131
7. Extrusion	156
8. Compression and Transfer Molding	204
9. Injection Molding of Thermoses	241
10. Designing Molds for Thermoses Processing	253
11. Cold Molding	267
12. Thermoforming Plastic Film and sheet	273
13. Blow Molding	326
14. Rotational Molding	348
15. Calendering	357
16. Vinyl Dispersions	365
17. Powder Callings	423
18. Casting	135
19. Reinforced Plastics	462
20. Cellular Plastics	499
21. Radiation Processing	600
22. Moldmaking and Materials	606
23. Designing Molded Products	641
24. Standards for Tolerances on Molded Articles	668
25. Finishing and Machining Plastics	688
26. Decorating Plastics	724
27. Joining and Assembling Plastics	753
28. Design Standards for Inserts	814
29. Compounding and Materials Handling	838
30. Performance Testing of Plastic Products	872
Index	889
