

CONTENTS

1. Glossary	1
2. Polymer Chemistry	33
3. Plastic Materials/Properties and Applications	47
4. Extrusion Processes	79
5. Injection Molding of Plastics	133
6. Design Considerations for Injection Molds	179
7. Injection Mold Manufacturing	201
8. Injection Molding of Thermosets	239
9. Compression and Transfer Molding	251
10. Designing Molds for Thermoset Processing	289
11. Molded Part Design	307
12. Blow Molding of Thermoplastics	341
13. Thermoforming of Plastic Film and sheet	383
14. Rotational Molding	429
15. Calendering	441
16. Vinyl Dispersions	447
17. Powder Coatings	497
18. Reinforced Plastics and Composites	511
19. Cellular Plastics	541
20. Radiation Processing	609
21. Material and Parts Handling	615
22. Compounding	635
23. Finishing and Machining Plastics	657
24. Joining and Assembling Plastics	693
25. Design Standards for Inserts	751
26. Decorating Plastics	777
27. Performance Testing of Plastics Products	801
28. Standards for Molding Tolerances	821
Index	845
