

CONTENTS

1. MECHANISM OF PLASTICIZATION	1
Essentials of Mechanistic Theory	7
2. PLASTICIZERS FOR RUBBER AND RELATED POLYMERS	21
Introduction	21
Nature of High Polymers and Elastomers	23
Physical Theory of Plasticizer Action	31
Milling and Plasticization of Rubber	58
Analysis of Rubber Process Oils in Relation to Selection	79
Effect of Plasticizers in Rubber	118
Specific Plasticizer Applications	156
3. PLASTICIZERS FOR THE CELLULOSICS	186
Commercially Produced Cellulosics	186
Plasticization Techniques	187
Solubility Parameter	188
Cellulose Nitrate	189
Cellulose Acetate	193
Mixed Esters of Cellulose	199
Plasticizers for Other Butyrate Esters	208
Cellulose Acetate Propionate	209
Ethyl Cellulose	210
4. PLASTICIZERS FOR ACRYLIC RESIN	219
Physical Properties of Acrylic Polymers	220
Compatibility of Plasticizers with Acrylic Polymers	225
Known Plasticizers for Acrylic Resins	228
Application for Plasticized Acrylic Resins	232
INDEX	243
