

CONTENTS

1. Chain-breaking Antioxidants in Polymer Stabilisation	1
2. Melt Stabilisation of Polypropylene	39
3. High Temperature Stability of Rubber Vulcanisates	101
4. Antioxidants in Rubber Aged in Air and in Hydraulic Fluids	137
5. The Influence of Metal Chelates on the Oxidation of Polymers	167
6. The Effect of the Fire Retardant, Ammonium Polyphosphate on the Thermal Degradation of a Polyurethane	197
7. The Photo-Stabilisation of Polyolefins	219
8. Developments in the u.v. -Stabilisation of Polymers	261
9. Stabilisation of Rubber-Modified Plastics Against Environmental Degradation	309
Index	329
