

CONTENTS

1	Introduction	1
2	Synthesis of Resins containing the Glycidyl Group	9
3	Cure and Cure Mechanisms	37
4	Curing Agents	60
5	Characteristics of the Cured Resin	85
6	Modifying materials	109
7	Cycloaliphatic and Epoxidised Olefin Resins	131
8	Surface Coatings	144
9	Epoxide Resins in the Electrical Industry	168
10	Laminates	194
11	Adhesives	210
12	Epoxide Resins in Building and Civil Engineering	222
13	Miscellaneous Applications	229
	Appendix: Note on Handling Epoxide Formulations	237
	General Bibliography	239
	Index	241
