

CONTENTS

1. Introduction	1
2. Chemistry	14
3. Polymerization Processes	37
4. The Resins	49
5. Plasticizers	67
6. Heat Stabilizers	88
7. Other Additives	107
fillers; colorants; modifying resins; lubricants; light stabilizers; fungicides; flame retardants; anti-static agents; brighteners	
8. Compounding	138
9. Processing	145
calendering; extrusion; injection molding; blow molding; thermoforming; compression molding	
10. Plastics and Organosols	173
11. Latexes	185
12. Applications	192
electrical applications; coatings; foams; fibers; packaging; film and sheeting rigid building applications; floor coverings; chemical resistance	
Appendix A — Formulations	242
Index	253
