

CONTENTS

<b>1. Introduction</b>	<b>1</b>
<b>2. Pyrolysis Processes for Production of Ethylene and Propylene</b>	<b>6</b>
I. Introduction and General Trends	6
II. Fundamental of Pyrolyses	13
III. Process Details	25
<b>3. Production of Polyethylene</b>	<b>72</b>
I. Polymer Structure and Process Introduction	72
II. High-pressure Processes	82
III. Low-Pressure Processes	103
<b>4. Production of Polypropylene</b>	<b>138</b>
<b>5. Production of Vinyl Chloride</b>	<b>173</b>
<b>6. Production of Polyvinyl Chloride Polymers</b>	<b>212</b>
I. Introduction and Polymerization Fundamentals	212
II. Process Details	228
<b>7. Processes for Styrene Production</b>	<b>272</b>
<b>8. Production of Polystyrene and Styrene Copolymers</b>	<b>312</b>
I. Introduction and Process Considerations	312
II. Commercial Processes for Polystyrene	323
III. Commercial Processes for Styrene Copolymers	351
Index	377
