

## CONTENTS

<b>1 INTRODUCTION</b>	<b>1</b>
1.1 Scope, history and commercial importance	
1.2 Materials	
1.3 Manufacturing methods	
1.4 General Comparison and criteria of choice	
1.5 General comparison of properties	
<b>2 MACHINING OF SHEET, ROD AND TUBE</b>	<b>17</b>
2.1 General Considerations	
2.2 Cutting sawing, etc	
2.3 Turning routing and milling	
2.4 Drilling tapping and threading	
2.5 Grinding sanding and polishing	
<b>3 DECORATION OF SHEET, ROD AND TUBE</b>	<b>24</b>
3.1 Introduction	
3.2 Painting	
3.3 Stamping	
3.4 Engraving	
3.5 Silk screen printing	
3.6 Photographic etching	
3.7 Transfers	
3.8 Metallising	
3.9 Mould marking	
3.10 Choice	
<b>4 JOINING BY CEMENTING AND WELDING</b>	<b>31</b>
4.1 General principles	
4.2 Individual materials	
4.3 Cementing and welding jigs	
<b>5 THE THEORY OF HEAT FORMING THERMOPLASTIC MATERIALS</b>	<b>41</b>
5.1 Introduction	
5.2 Temperature characteristics of various thermoplastics	
5.3 The nature of thermoplastics sheet	

<b>6</b>	<b>SIMPLE SHAPING AIDED BY HEAT</b>	<b>50</b>
6.1	General considerations	
6.2	Bending of rod and tube	
6.3	Ovens	
6.4	The heating of tooling	
<b>7</b>	<b>THE USE OF AIR PRESSURE AND VACUUM</b>	<b>64</b>
7.1	General principles	
7.2	Application of air pressure	
7.3	Application of vacuum	
7.4	The use of fluid pressure	
<b>8</b>	<b>THE USE OF MECHANICALLY APPLIED PRESSURE</b>	<b>72</b>
8.1	General principles	
8.2	Presses	
8.3	Clamping	
8.4	Feeding in	
8.5	The making of letters	
<b>9</b>	<b>COMPLEX PROCESSES USING A PLURALITY OF METHODS</b>	<b>89</b>
9.1	General principles	
9.2	Principles governing choice of process	
9.3	The problem of the nearly spherical section	
9.4	Injection moulding and extrusion versus fabrication	
<b>10</b>	<b>THE VACUUM FORMING MACHINE</b>	<b>103</b>
10.1	Introduction	
10.2	The process	
10.3	Developments	
10.4	Advantages and limitations	
<b>11</b>	<b>TOOL CONSTRUCTION AND DESIGN</b>	<b>111</b>
11.1	General principles	
11.2	Materials for tool construction	
11.3	Ancillary tooling	
11.4	Working tolerances	
11.5	Design	

## **12 SPECIAL TOPICS**

**125**

12.1 Rod and tube

12.2 Veneering

12.3 Mechanisation

12.4 Bi-axial stretching

12.5 The aircraft industry

12.6 Chemical engineering

12.7 The future
