

## CONTENTS

<b>1 INTRODUCTION</b>	<b>1</b>
1.1 Reinforced thermoplastics their origin, what they are and why and where they are used	1
1.2 Statistics	3
1.3 The technology and uses of reinforced thermoplastics—plan and scope of the book	8
1.4 Some theoretical aspects of the structure and properties of reinforced thermoplastics	9
<b>2 COMMERCIAL REINFORCED THERMOPLASTICS</b>	<b>18</b>
2.1 Europe and the UK	18
2.2 The USA and Japan	28
<b>3 POLYMERS USED IN THE PREPARATION OF REINFORCED THERMOPLASTIC MATERIALS</b>	<b>37</b>
3.1 Base polymers: selection and general points	37
3.2 The base polymers of reinforced thermoplastics materials	38
3.3 Properties of the base polymers	53
<b>4 REINFORCEMENTS</b>	<b>71</b>
4.1 General features	71
4.2 Glass fibres	73
4.3 Glass beads (microspheres)	88
4.4 Asbestos fibres	96
4.5 Other fibrous reinforcements	105
4.6 Particulate fillers	111
4.7 Comparison of the reinforcing effects of some fillers in four thermoplastics	116
<b>5 THE MANUFACTURE OF REINFORCED THERMOPLASTIC MATERIALS</b>	<b>119</b>
5.1 The basis and development of methods in current practice	119
5.2 Commercial processes	120
5.3 Effect of compounding on properties	140
<b>6 PROPERTIES OF REINFORCED THERMOPLASTIC</b>	<b>145</b>
6.1 General effects of reinforcement	145
6.2 Properties of practical interest and their determination	146
6.3 Effect of temperature on the properties of reinforced thermoplastics	185
6.4 Environmental effects	194

<b>7 PROCESSING OF REINFORCED THERMOPLASTICS</b>	<b>207</b>
7.1 General features and techniques	207
7.2 Injection moulding of reinforced thermoplastic	210
<b>8 APPLICATIONS AND DEVELOPMENTS</b>	<b>236</b>
8.1 Current fields of application and uses of reinforced thermoplastic	236
8.2 Performance specifications	247
8.3 Some recent and current developments	247
<b>9 SPECIAL REINFORCED THERMOPLASTIC MATERIALS</b>	<b>251</b>
9.1 General	251
9.2 Flame retardant reinforced thermoplastic	251
9.3 Low-friction materials	260
<b>10 REINFORCED FOAMS</b>	<b>264</b>
10.1 Nature and definition	264
10.2 Characteristics and formation—general	264
10.3 Properties	267
10.4 Production: injection-moulded structure foam	271
10.5 Applications	276
APPENDIX 1 Reinforced thermoplastics in patents	279
APPENDIX 2 Abbreviations	284
APPENDIX 3 Units: conversion tables	285
INDEX	293
