

CONTENTS

1. Digital Hydraulics	1
2. Clamping Systems	37
3. Mould Design and Manufacture	71
4. Screw and Barrel Assembly Development	101
5. Materials Modification in Injection Moulding	133
6. Economic Material Use in Injection Moulding	155
7. Training and Education	169
8. Temperature Control	191
9. Solid State Systems	211
10. Process Control	229
Index	279
