

CONTENTS

1.	Mechanisms of Toughening Thermoset Resins	1
TOUGHENED THERMOPLASTICS		
2.	Fracture-Toughness Testing of Toughened Polymers	39
3.	Multiple-Phase Toughening Morphology: Effects on the Properties of Rubber-Toughened Poly (methyl methacrylate)	61
4.	Toughened Semicrystalline Engineering Polymers: Morphology, Impact Resistance, and Fracture Mechanisms	79
5.	Deformation and Fracture Toughness in High-Performance Polymers: Comparative Study of Crystallinity and Cross-Linking Effects	105
6.	The Damage Zone in Some Ductile Polymers under a Triaxial Tensile Stress State	143
TOUGHENED THERMOSETS		
7.	Additive Effects on the Toughening of Unsaturated Polyester Resins	163
8.	Particle – Matrix Interfacial Bonding: Effect on the Fracture Properties of Rubber-Modified Epoxy Polymers	189
9.	Macroscopic Fracture Behavior: Correlation with Microscopic Aspects of Deformation in Toughened Epoxies	211
10.	Optimization of Mode-I Fracture Toughness of High-Performance Epoxies by Using Designed Core Shell Rubber Particles	259
11.	Toughening of Epoxy Resin Networks with Functionalized Engineering Thermoplastics	293
12.	Epoxy-Rubber Interactions	305
13.	The Synergistic Effect of Cross-Link Density and Rubber Addition on the Fracture Toughness of Polymers	317
14.	Rubber-Modified Epoxies: Analysis of the Phase-Separation Process	335
15.	Thermal Shock Resistance of Toughened Epoxy Resins	365
16.	Toughening Epoxy Resins with Poly(methyl methacrylate)-Grafted Natural Rubber	381
17.	Toughening Epoxies Using Rigid Thermoplastic Particles: A Review	405
18.	Preparation of Poly(butylene terephthalate)-Toughened Epoxies	427
19.	Toughening of Epoxy Resins by Epoxidized Soybean Oil	451
APPLICATIONS OF TOUGHENED PLASTICS		
20.	Structure-Property Relations of High-Temperature Composite Polymer Matrices	493
21.	Model Multilayer Toughened Thermosetting Advanced Composites	507
22.	Multiphase Matrix Polymers for Carbon-Fiber Composites	519
23.	Thermal Characterization of the Cure Kinetics of Advanced Matrices for High-Performance Composites	539
