

CONTENTS

Section I Introduction and Guide for the Selection and Use of Fillers	1
1. Introduction	3
2. Principles of Filler selection and Use	8
Section II coupling Agents	63
3. Organofunctional Silanes	65
4. Titanates	77
5. Miscellaneous Coupling Agents	112
Section III Mineral Fillers	117
6. Calcium Carbonate	119
7. Kaolin	143
8. Feldspar	156
9. Synthetic Silicas	165
10. Natural Silica	202
11. Talc	216
12. Miscellaneous Mineral Fillers	232
Section IV Metallic, Conductive and Magnetic Fillers	243
13. Conductive fillers	245
14. Magnetic Fillers	271
Section V Flame-Retardants	277
15. Antimony Oxide	279
16. Alumina Trihydrate	292
17. Halogen and Phosphorus Containing Flame Retardants	313
18. Miscellaneous Flame Retardants and Smoke Suppressants	364
Section VI Carbon Black and Organic Fillers	387
19. Carbon Black	389
20. Organic Fillers	420
Section VII Spherical Fillers	427
21. Solid Spherical Fillers	429
22. Hollow Spheres	437
Appendix: Metric Conversion	453
Index	459
