

Contents

<i>Preface</i>	v
<i>Contributors</i>	ix
1 Overview of the Automotive Plastics Market Susan J. Babinec and Martin C. Cornell	1
2 Plastics Processing Steven D. Stretch	47
3 Formulating Plastics for Paint Adhesion Dominic A. Berta	85
4 Polymers for Coatings for Plastics J. David Nordstrom	121
5 Performance and Durability Testing Philip V. Yaneff	157
6 Painting Problems Clifford K. Schoff	203
7 Recycling of Automotive Plastics Rose A. Ryntz	243
	vii

8	Alternatives to Coatings for Automotive Plastics Norm Kakarala and Thomas Pickett	279
9	Trends in Coatings for Automotive Plastics and Rubber in North America and Europe Robert Eller	293
10	Automotive Plastic Coatings in Europe Hans Christian Gruner and Klaus-Werner Reinhart	317
	<i>Index</i>	353
