

CONTENTS

1. An Introduction to plastics	1
2. Thermosetting Materials and Cold-Mold Plastics	27
3. Thermoplastics	55
4. Extrusion and Injection Molding	103
5. Compression, Transfer and Injection Molding of Thermosets	132
6. Other Plastics Processing Methods	158
7. Material Selection and Product Design	229
8. Hydraulics for Plastics Engineers	323
9. Thermal and Machine Control	364
10. The Laminated and Reinforced Plastics	387
11. Molding Machine Maintenance	419
12. Engineering and Estimating Molding Products	428
Glossary	439
Appendix	497
Index	535
