

CONTENTS

1. An Introduction to Plastics	1
2. Thermosetting Materials and Cold-Mold Plastics	40
3. Thermoplastics	68
4. Extrusion and Injection Molding	117
5. Compression, Transfer and Injection Molding of Thermosets	143
6. Other Plastics Methods	170
7. Material Selection and Product Design	241
8. Thermal and Machine Control	309
9. The Laminated and Reinforced Plastics	332
10. Molding Machine Maintenance	363
11. Engineering and Estimating Molded Products	373
Glossary	385
Acronym Alphabet Analyzer	443
Index	453
