

CONTENTS

Foreword

Part 1 Understanding plastics	1
1.1 A place for plastics	3
1.2 Understanding polymers	7
1.3 Types of plastics	13
1.4 Making plastics in schools	30
1.5 Identifying plastics	34
1.6 Properties of plastics	39
Part 2 Working with plastics	47
2.1 Joining, fastening, cutting	49
2.2 Simple thermoforming	60
2.3 Blow moulding	65
2.4 Vacuum forming	67
2.5 Injection moulding and extrusion	71
2.6 Compression moulding	80
2.7 Other moulding methods	85
2.8 Working with GRP	94
Part 3 projects with plastics	111
3.1 Starting points for projects	113
3.2 Design briefs with plastics	117
3.3 Visual and technical studies	123
Part 4 References	127
4.1 Crystal Models	129
4.2 Resources	132
4.3 Suppliers and trade names	135
4.4 Safety with plastics	138
4.5 Storage and care	141
4.6 SI conversion	142
4.7 Glossary of terms	143
4.8 Index	149
