

CONTENTS

PREFACE	ix-x
1 PLASTICS NOMENCLATURE	1
A Definition of Plastics – Synthesis Resins – Monomers and Polymers – Catalysts – Plasticisers – Plasticising – Classification into Thermosetting and Thermoplastic Materials – Thermosetting Materials – Thermoplastic Materials	
2 RAW MATERIALS FOR PLASTICS	10
Introduction – Coal – Petroleum – Natural Gas – Chemicals for Plastics Manufacture	
3 THE MANUFACTURE OF PLASTICS MATERIALS	17
Introduction to the Charts – Phenol-formaldehyde Resins and Plastics – Amino – formaldehyde Resins and Plastics – Cellulosic Plastics – Casein – Ethenoid Plastics – Nylon – Organosilicon Polymers – Plywood – Minor Synthetic Resins and Coating Compositions	
4 THE FABRICATION OF PLASTICS	75
General Methods of Fabrication – Mould Making – Compression Moulding – Injection Moulding – Finishing, Inspection and Salvage – Extrusion	
5 THE PROPERTIES OF PLASTICS MATERIALS	132
British Standards – Properties of Plastics Materials	
BIBLIOGRAPHY	140
INDEX	143
