

CONTENTS

I.	Introduction to Free Radical Polymerization	1
II.	Polymerizations in Bulk	31
III.	Polymerizations in Suspension	69
IV.	Polymerizations in Emulsion	111
V.	Polymerizations in Solution	175
VI.	Ionic Polymerizations	199
VII.	Polyamides and Polyesters	235
VIII.	Condensations with Formaldehyde	295
IX.	Cellulose and Cellulose Derivatives	351
X.	Epoxy Resins	429
XI.	Polysulfide Polymers	475
XII.	New Adhesives	499
XIII.	Stabilization of Polymers	525
XIV.	Paste Techniques	551
XV.	Latex Techniques	625
XVI.	Compounding and Processing Rubbers and Resins	679
XVII.	Polymer Reinforcement (Polyester, Epoxy, Silicone and Phenolic Resins)	761
XVIII.	Spinning and Drawing Fibers	837
	Appendix	879
	Index	883
