Chapter I The Study and Practice of Perfumery	
Terminology	1
Scientific and Medical Aspects	4
Perfumes and the Skin	5
Technological Aspects	8
How Does Perfume Appeal?	10
Choosing a Perfume	11
An International Industry	12
References	12
Chapter 2 Historical and Biographical	
Perfume in the Ancient World	14
Japanese Incense Cult	18
Influence of Greece and Rome	19
Early Distillation Techniques	21
Technological Developments: Chronological Chart	24
Eau de Cologne Makes its Debut	25
Jicky, Ideal, trefle Incarnat: First of the Moderns	27
Perfumers of Today and Yesterday: a Biographical Record	29
Chapter 3 Ther Perfumer's Raw Materials: Products of natural Origin	
Concrete Oils	38
Absolute Oils	39
Essential Oils Derived from Distillation	41
Essential Oils obtained by Expression	42
Isolates etc. from Essential Oils	42
Natural Odorants as Tinctures	43
Balsams and Resins	44
Rose, Jasmin, Tuberose and other Natural Odorants	46
References	64
Chapter 4 The Perfumer's Raw Materials: Products of Natural Origin	
Distilled Essential Oils (an alphabetically arranged list)	65
Expressed Essential Oils	97
Isolates, Esters etc.	101
References	105
Chapter 5 The Perfumer's Raw Materials : Products of Natural Origin	
Tinctures, Infusions, Absolutes	107
Ambergris	108
Castoreum,Civet and musk	109
Balsams and Resins	111
References	115
Chapter 6 The Perfumer's Raw Materials : Products of Synthetic Origin	
Odorants Grouped According to Applications	119
Green Notes	124
Fruity Notes	126
The Salicylates	131
Odorants Significant in nature	136
Synthetic Odorants (a list alphabetically arranged)	138

References	157
Chapter 7	Classification of Odours and Odorants
	Classifications Devised by Perfumers and Others
	Odour Persistence Table
	Odorants Grouped According to Volatility
	Billot's Classification of Odours
	References
Chapter 8	Creating a Perfume
	Working within a Framework
	The Practical Foundation
	Inspiration: Response to Stimuli
	Jeancard on Composition
	Limitations of Published Formulae
	The Perfumer's Knowledge of Chemistry
	The Method of Carles
	Analysing the Properties of Odours
	Systematic Recording of Data
	References
Chapter 9	Formulary Section: Flower Perfumes
	Rose Bases and Perfumes
	Jasmin Perfumes
	Orangeflower and Neroli
	Violet Bases and Perfumes
	Flower Perfums arranged alphabetically : Acacia to Ylang Ylang
	References
Chapter 10	Formulary Section : Sophisticated or Fantasy Perfums
	Introductory
	Aldehydic Bases
	Leather, Woody and Mossy Bases
	Floral Bouquet Perfumes
	Aldehydic Perfumes
	Chypre Perfumes
	Oriental Type Perfumes
	Green Perfumes
	Dominant Note Types
	Manufacturing Processes
	Alcoholic Strengths
	References
Chapter 11	Colognes : Eaux de Toilette : Perfumes for Men
	History and Development of Eau de Cologne
	Toilet Waters
	Ethyl Alcohol as Perfume Solvent
	Perfumes for Men
	References
Chapter 12	Olfaction and Gustation : The Perception and Senses of Smell and Taste
	Mechanism of Preception
	Odorous and Odourless
	What Makes a Substance Smell?
	A Coding System for Olfactory Specificity?
	How Does a Perfumer 'See' Odours?
	Abnormalities of Smell
	The Complexity of Flavour Perception
	Taste-Sensitivity, Intuition and Introversion
	References

Chapter 13	Perfumes for Many Purposes	
	Perfume Applications : a short list	290
	Perfuming Soap and Other Detergents	291
	Perfumed Disinfectants	298
	Perfuming the Air	300
	Perfuming Cosmetics	303
	Adapting the Perfume to the Vehicle	304
	Perfumed Aerosols	307
	Perfumes in Pharmacy and Medicine	308
	Industrial Perfumes	309
	Masking malodours	310
	Perfumes in Agriculture and Horticulture	311
	Flavours as perfumes	313
	References	314
Chapter 14	Packaging and Marketing	
	The Importance of Presentation	319
	Packaging in the Past	319
	Presentation in the 20 th Century	320
	The Impact of Aerosols	321
	Giving a Perfume Identity	321
	Who Makes the Decisions?	325
	Perfume and the World of Fashion	326
	National Preferences	327
	The Question of Colour	328
	The Means of Advertising	328
	References	330
Chapter 15	Perfumery as a Career	
	Entering the Industry	331
	The Perfumer's Training	332
	The Importance of Smelling	334
	Aids to Odour Identification	335
	Handling Perfumery Materials	335
	Compounding and Measurement	336
	The Perfumery Laboratory	337
	The Perfumer's Notebook	338
	The Imitation of Perfumes	338
	Contrast Techniques	340
	From Copying to Original Work	340
	Chemists and Consultants	341
	Perfumery Societies	341
	References	342
