

## CONTENTS

1. Elements of Polymer Science	1
2. Polymer Adsorption: Fundamentals	51
3. Polymeric Surfactants: Stabilization of Emulsions and Dispersions	73
4. Polymer/Surfactant Interaction: Manifestations, Methods, and Mechanisms	113
5. Polymer/Surfactant Interaction in Applied Systems	181
6. Synthetic Polymers in Cosmetics	217
7. Silicones in Cosmetics	275
8. Polysaccharide-Based Polymers in Cosmetics	325
9. Proteins in Cosmetics	391
10. Measuring and Interpreting Polycation Adsorption	465
11. The Adsorptivity of Charged and Uncharged Cellulose Ethers	509
12. Evaluation Methods for Conditioned Hair	525
Appendix: Encyclopedia of Polymers and Thickeners for Cosmetics	571
Index	657
