

CONTENTS

Preface	xi
Introduction	xiii

I. ADDITIVES

A. Ink Dispersants	1
B. Ink Dispersants and Colorants	4
C. Oil Dispersants	8
D. Oil Drilling Dispersants	12
E. Fabric Additives	17
F. Paint Additives	37
G. Paint Stabilizers	46
H. Paper Additives	49
I. Polymeric Additives	52

II. ADHESIVES

A. Pressure Sensitive Adhesives	59
B. Surface Adhesives	67
C. Thermally Stable Adhesives	76

III. COSMETICS

A. Topical	81
------------------	----

IV. CRYSTALLINE MATERIALS

A. Liquid-Crystal Displays	85
----------------------------------	----

V. DYES

A. Jet Printer Ink	111
--------------------------	-----

VI. ELECTRICALLY ACTIVE POLYMERS

A. Battery	121
B. Conducting Polymers.....	125
C. Electrodes	129
D. Photovoltaic Cells	145
E. Semiconductors	163
F. Transistors	185

VII. ENERGETIC POLYMERS

A. Explosive Binder	191
---------------------------	-----

VIII. ENGINEERED PLASTICS

A. Blends	197
B. Composites	200
C. Crosslinking Agents	205
D. High-Performance Polymers	215

IX. FIBERS

A. High Strength	251
------------------------	-----

X. FUEL CELLS

A. Fuel Cell Membranes.....	259
B. Proton Conducting.....	262

XI. IMPROVED SYNTHETIC METHODS

A. Isocyanates	281
B. Organometallic Catalysts.....	285

XII. INITIATORS/MODIFIERS

A. Free Radical Initiators	317
B. Free Radical Initiator Modifiers	322
C. Photoinitiators.....	325

XIII. LIGHT-EMITTING POLYMERS

A. Diodes	335
-----------------	-----

XIV. MEDICAL POLYMERS

A. Biodegradable	409
B. Biomaterials for Dental Applications	421
C. Biomaterials for Diagnostics.....	447
D. Biomaterials for Drug Delivery Devices.....	455
E. Biomaterials for Gene Therapy	489
F. Biomaterials for Membranes.....	494

XV. NITRIC-OXIDE-RELEASING AGENTS

A. Antirestenosis Agents	499
--------------------------------	-----

XVI. OPTICAL

A. Intraocular Lenses	507
B. Optical Fibers	533
C. Optical Waveguides	536

XVII. PHARMACEUTICALS

A. Polypeptides.....	541
B. Radiopharmaceuticals	544

XVIII. PHOTORESISTS

A. Resists	551
------------------	-----

XIX. PHOTOTHERAPY

A. Oxygen Generators	599
----------------------------	-----

XX. RECORDING MATERIALS

A. Anisotropic Films.....	607
---------------------------	-----

XXI. STENTS

A. Cardiovascular 613

XXII. SUTURES

A. Adsorbable 617

XXIII. TISSUE REPLACEMENT

A. Tissue Engineering 621

XXIV. VISCOELASTIC POLYMERS

A. High Viscoelastic Materials..... 635

Contributors

Academic Contributors 641

Government Contributors..... 641

Industrial Contributors..... 642

Index 645
