

CONTENTS

REVIEW

- | | | |
|----|--------------------------------------------------------------------------------|----|
| 1. | Polymer Blends: Phase Behavior and Property Relationships | 3 |
| 2. | Recent Developments in Interpenetrating Polymer Networks and Related Materials | 21 |

CHARACTERIZATION OF POLYMER BLENDS

- | | | |
|----|------------------------------------------------------------------------------------------------|-----|
| 3. | Poly(2,6-dimethyl-1,4-phenylene Oxide) Blends Studied by Inverse Gas Chromatography | 59 |
| 4. | Miscibility in Random Copolymer Blends | 67 |
| 5. | Poly(vinylphenol) Blends with Poly(vinyl Acetate) and Ethylene – Vinyl Acetate Copolymers | 77 |
| 6. | Specific Interactions in Polyester-Poly(vinyl Halide) Blends: Fourier Transform IR NMR Studies | 87 |
| 7. | Crystallization and Melting in Compatible Polymer Blends | 111 |

CHARACTERIZATION OF BLOCK COPOLYMERS

- | | | |
|----|-----------------------------------------------------------------------------------------------------------------------------------|-----|
| 8. | Glass Transitions of Both Blocks of Styrene-Butadiene Block Copolymers | 127 |
| 9. | Three Types of Poly(styrene-Ethylene Oxide) Block Copolymers: Synthesis and Study of Their Emulsifying and Crystalline Properties | 139 |

INTERPENETRATING POLYMER NETWORKS

- | | | |
|-----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| 10. | Interpenetrating Polymer Networks Based on Polybutadiene and Polystyrene: Morphology and Phase Dimensions by Small-Angle Neutron Scattering Electron Microscopy | 153 |
| 11. | Polyurethane-Polysiloxane Simultaneous Interpenetrating Polymer Networks | 171 |
| 12. | Extraction Studies and Morphology of Physical-Chemical Interpenetrating Polymer Networks Based on Block Polymer and Polystyrene | 195 |
| 13. | Two- and Three-Component Interpenetrating Polymer Networks | 211 |
| 14. | Poly(acrylourethane)-Polyepoxide Semi-interpenetrating Networks Formed by Electron-Beam Curing Compatibility and Mechanical Behavior | 231 |

MECHANICAL BEHAVIOR

- | | | |
|-----|---------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| 15. | Binary and Ternary Blends of Polybutadiene–Polystyrene Block Copolymers and Homopolymers: Development in Achieving Toughness Through Control of Particle Morphology | 259 |
| 16. | Irreversible Microdeformation in Miscible Polymer Blends | 273 |
| 17. | Fatigue in Rubber-Modified Epoxies and Other Polyblends | 291 |
| 18. | Environmental-Stress Cracking and Cracking of Poly(methyl Methacrylate)-Poly(vinylidene Fluoride) Blends | 313 |
| 19. | The Morphology and Mechanical Properties of Ethylene-Propylene Copolymer and Blends | 325 |

RHEOLOGY AND APPLICATIONS

20. A New Silicone Flame-Retardant System for Thermoplastics	337
