

CONTENTS

Polyimides - A New Class of Polymers	1
Synthesis and Properties of Acetylene Terminated Aryl-Ether Oligomers	29
Phenylated Aromatic Heterocyclic Polyphenylenes Containing Pendant Diphenylether	41
Substituted Polyamides as Precursors for Alkyl and Alkenyl Polybenzoxazoles	55
The Synthesis of Aromatic Polyformals	67
New Polymers Prepared From N-Cyanoourea Compounds	103
Poly (N-acyl ethyleneimines) With Polarizable Aromatic Side Chain Substituents and Their Complexes: Synthesis, Structure and Electronic Properties	113
Aqueous Solution Synthesis of Platinum II Polyureas, Polythioureas and Polyamides	133
Synthesis of Dichloropalladium II Polyamines	149
Star and Comb Shape Poly (oxyethylene-g-ethyleneimines)	163
Poly (azoalkylene -N,N' -dioxides), 2,x-4 Nitroisopropylidenebicyclohexyl -w- nitropoly (azo-1,4-cyclohexylene-isopropylidene- 1,4-cyclohexylene-N-N'-dioxide) and x-4 -- nitrobicyclohexyl -w- nitropoly (azo-4-'-bicyclohexylene-N,N'-dioxide)	173
Macromolecular Dyes – Synthetic Strategies	185
Quaternization of Condensation Polymers	201
Para-Methylstyrene: A New Commercial Monomer For The Styrenics Industry	223
New Vinyl Organometallic Monomers:	243
Synthesis of Organometallic Polymers For Inertial Fusion Applications	269
Synthesis and NMR Characterization of Copolymers of α -Fluorostyrene with Methyl Acrylate	285
Quinodimethane Polymers	311
Alkyl-Lithium-Initiated Polymerization of Myrcene. New Block Copolymers of Styrene and Myrcene	329
New Functional Methacrylate Polymers by Anionic Polymerization	357
Conductive Polymer: An Opportunity For New Monomers and Polymers	381
Polymerization of Butadiyne: Polymer Characterization and Properties	399
Synthesis of Copolymers of m-Diisopropenyl-benzene and m-Dimethoxybenzene	415
Progress in Ring-Opening Polymerization of Cyclic Ethers and Cyclic Sulfides	431
Index	443
