

CONTENTS

	Page
PART I GENERAL	
1. Introduction	1
2. Raw Materials	35
PART II MATERIALS	
3. Phenoplasts	52
4. Aminoplasts	73
5. Polyesters	91
6. Epoxy Resins	133
7. Silicones	160
8. Polyurethanes	182
9. Polyolefins	207
10. Polywinyls	251
11. Polystyrene and Copolymers	284
12. Polyamides	318
13. Acrylic Polymers	342
14. Fluorocarbon Polymers	357
15. High-Performance thermoplastics	371
16. Heat Resistant Thermoplastics	392
17. Polymers of natural Origin	407
18. Derivatives of Natural Polymers	418
19. Natural and Modified Rubbers	445
20. Synthetic Rubbers	461
21. Inorganic and Semiorganic Polymers	487
22. Plasticizers, Stabilizers, and Related Additives	497
23. Fillers, Colorants, and Special Additives	514
PART III PROCESSES	
24. Extrusion	532
25. Extrusion	546
26. Injection Molding and Blow Molding	569
27. Thermoforming	594
28. Powder coating	609
29. Miscellaneous Processing Techniques	631
PART IV TESTING	
30. Physical and Chemical Testing of Plastics	663
Index	690
