

CONTENTS

	Page
Introductory Remarks at the International Conference on the Chemistry of the Solvent Extraction Of Metals	1
Fission Product Behaviour in the First Contactor of a TBP Process	3
Factors Influencing the Variability of Ruthenium Decontamination in TBP Processes	27
The Fate of Fission Product Zirconium and Niobium in the Dounreay Fast Reactor Chemical Reprocessing Plant	41
Performance of 3% and 30% TBP Processes	47
Behaviour of Actinides and Fission Products in Tri-n-butyl Phosphate and in Di-2-amyl 2-Butylphosphonate Solvent Extraction Processes using Short-residence Contactors	81
Utilization of uranium (IV) Nitrate in a Second Cycle of Purification of Plutonium by TBP	103
Uranium (IV) as a Process Reductant for Plutonium (IV)	117
The Role of Nitrous Acid in the Reduction of Plutonium (IV) by Uranium (IV) in TBP Systems	133
Stability of Aromatic Diluents and Solvent Extraction Reagents in Radiochemical Processing	161
The Influence of High Radiation Levels on the Retention of Ruthenium in Processing Solvents	187
Chemical Degradation of Aromatic Diluents Exposed to Nitric Acid Attack	197
Selection, Cost and Performance of n-Paraffin Diluents	213
The Mechanism of Extraction of Transplutonium Elements by Trilaurylamine Hydrochloride	233
Reprocessing by Quaternary Ammonium Nitrates: Laboratory Studies	247
Extraction of Plutonium with some Mixed Extractants	267
Backwashing, Concentration and Decontamination on a Silica Gel Column of Plutonium Extracted By Trilaurylamine	275
The use of Nitrous Acid as a Backwashing Agent for Actinide-Bearing Solvents	295
Unexpected Rate Effects in the Extraction of Rare Earths by Di(2-ethylhexyl)phosphoric Acid	305
Considerations in Solvent Extraction Processing of U.S. Beryllium Ores	315
Primary Amine Extraction of Beryllium from Sulphate Liquors	327
Separation of Alkali Metals by Solvent Extraction with Mixtures of Organic-Soluble Acids and Phenols	343
Carboxylic Acids as Reagents for the Solvent Extraction of Metals	359

The Chemistry of the Formation and Elimination of Third Phase in Organophosphorus and Amine Extraction Systems	377
Application of Solvent Extraction Techniques to the Large-Scale Recovery and Purification of Fission Product Elements	401
Behaviour of the Transplutonium Elements in Solvent Extraction Systems	423
Concluding Remarks	443
Index	447
