

CONTENTS

Mechanical Press Brakes	1
Hydraulic Press Brakes	12
Mechanical Press-brake Drives and Controls	24
Hydraulic Circuits and Controls	36
Brake Forming Theory and Practice	44
Small and Unusual Press Brakes	57
Press-Brake Die Selection	65
Basic Press-Brake Dies	74
Four-Way dies and special tooling	84
Bending with “Soft” Tooling	93
Punching and Pressworking with the Press brake	102
The Design and Construction of Squaring Shears	120
Holddowns, Gages and Options	132
Selecting and Using shear Knives	140
The Theory and Practice of Shearing	150
New Developments in Press Brakes and shears	160
Safety standards for Press Brakes and Shears	176
