Preface / vii

PART I. GENERAL PROCESSING DATA

1. Tables of Data, *Edwin R. Bowerman, Jr.* / 3
2. Design for Plating, *J. Hyner* / 50
3. Metal Surface Preparation and Cleaning / 58
 - A. Basis Metal Surface, *Keith Sheppard* / 58
 - B. Polishing, Brushing and Buffing, *Henry L. Keltner* and *Kenneth J. Gatchel* / 61
 - C. Mass Finishing Methods, *J. Bernard Hignett* / 78
 - D. Electropolishing, *Dean E. Ward* / 100
 - E. Solvent Cleaning, *Kenneth S. Surprenant* / 121
 - F. Alkaline Cleaning, *Lawrence J. Durney* / 147
 - G. Oxide Removal, *Cloyd A. Snively* and *Charles L. Faust* / 159
4. Typical Processing and Operating Sequences / 174
 - A. Metals, *Donald L. Synder* and *James K. Long* / 174
 - B. Plastics, *J. B. Hajdu* and *Gerald Krulik* / 202
5. Wastewater Control and Treatment, *Clarence H. Roy* / 206
6. Plating Bath Compositions and Operating Conditions, *Lawrence J. Durney* / 226
7. Plating Standards and Specifications, *Edward T. Clegg* and *Fielding Ogburn* / 263
8. Troubleshooting, *Lawrence J. Durney* / 285
9. Analysis of Plating Solutions, *John Morico* / 289
10. Testing Electrodeposited Coatings / 309
 - A. Thickness Tests, *Isidore Cross* / 309
 - B. Corrosion Tests, *James Douglas Thomas* / 328
 - C. Inspection, *Leland M. Morse* / 332
11. Industrial Hygiene and Safety, *Bryan E. Winter* and *Anthony O. Facciolo, Jr.* / 341
12. Relevant Materials Science for Electroplaters, *Rolf Weil* / 352
13. Surface Protection and Finishing Treatments / 366
 - A. Phosphate Coating Processes, *Alfred Douty* and *Ellsworth A. Stockbower*, revised by *William C. Jones* / 366
 - B. Chromate Conversion Coatings, *William P. Innes* / 390
 - C. Sulfuric and Chromic Acid Anodizing of Aluminum, *W. C. Cochran* / 396
 - D. Anodizing and Surface Conversion Treatments for Magnesium, *H. K. DeLong* / 410

14. Nonelectrolytic Metal Coating Processes / 420
 - A. Non-Catalytic Chemical Methods, *H. L. Pinkerton* / 420
 - B. Vapor-Phase Methods, *John A. Thornton* / 426
 - C. Catalytic Methods, *Ian McDonald* / 438
15. Current and Metal Distribution, *H. L. Pinkerton*, revised by *Lawrence J. Durney* / 461
16. Electroforming, *George A. DiBari* / 474

PART II. ENGINEERING FUNDAMENTALS AND PRACTICE

17. Plant Location and Layout, *Simon P. Gary* / 493
 18. Floors—Plans and Construction, *Robert R. Pierce* / 503
 19. Tanks—Design, Construction Installation and Maintenance, *John V. Davis* and *A. Kenneth Graham*, revised by *Lawrence J. Durney* / 516
 20. Linings, *Kenneth Tator* / 525
 21. Heating and Cooling Equipment, *H. L. Pinkerton* and *A. Kenneth Graham* / 537
 22. Design, Construction, Insulation and Maintenance of Plating Racks, *Herbert Tilton* / 559
 23. Manually Operated Installations, *Lawrence J. Durney* / 567
 24. Barrels, *William H. Jackson* and *A. Kenneth Graham*, revised by *Reginald K. Asher, Sr.* / 573
 25. Semi- and Fully Automatic Plating Machines, *Martvig J. Moll*, revised by *Lawrence J. Durney* / 606
 26. Continuous Plating Equipment for Steel Mill Products, *A. Kenneth Graham* and *Samuel S. Johnston* / 617
 27. Anode and Cathode Rod and Bus Systems, *A. Kenneth Graham* and *H. L. Pinkerton*, revised by *Lawrence J. Durney* / 631
 28. Exhaust Systems, *Allen D. Brandt* and *David M. Anderson* / 638
 29. Electrode Materials and Design, *H. L. Pinkerton*, revised by *Lawrence J. Durney* / 656
 30. Rectifiers, *Peter Cambria* / 669
 31. Pulse Plating, *Robert Duva* / 684
 32. Rinsing, *H. L. Pinkerton* and *A. Kenneth Graham* / 691
 33. Drying Practices and Equipment, *H. L. Pinkerton* / 710
 34. Filtration, *Richard W. Crain* / 716
 35. Auxiliary Equipment for the Plating Room, *H. L. Pinkerton*, revised by *Lawrence J. Durney* / 728
 36. General Maintenance, *Richard B. Saltonstall* and *Leslie C. Borchert* / 739
 37. Electrochemical Machining, *Charles L. Faust* / 744
 38. Electrodeposition of Organic Coatings, *George E. F. Brewer* / 755
 39. High Speed Plating / 767
 - A. Applications, *W.H. Safranek* / 767
 - B. Principles, *Robert Duva* / 772
- Index / 775
