

CONTENTS

1. Basic Manufacturing Processes 1
2. Nature and Properties of Materials 17
3. Production of Ferrous Metals 37
4. Production of Nonferrous Metals 71
5. Foundry Processes 90
6. Special Casting Processes 126
7. Heat Treatment 157
8. Welding 186
9. Powder Metallurgy 233
10. Plastics 256
11. Metrology 287

12. Hot Working of Metal	333
13. Cold Working of Metal	360
14. Press Work	393
15. Basic Machine-Tool Elements	426
16. Numerical Control	450
17. Metal Cutting	467
18. Turning Machines	490
19. Drilling and Boring Machines	522
20. Milling Machines and Cutters	550
21. Shapers and Planers	557
22. Sawing and Broaching Machines	590
23. Grinding and Abrasive Machines	613
24. Gears and Gear-Cutting Machines	646
25. Threads and Thread Cutting	672
26. Special Processes	690
