

CONTENTS

| | | Page |
|------------|--|------|
| SECTION 1 | Sampling Tanning Materials | 1 |
| SECTION 2 | Quantitative Tannin Analysis | 14 |
| SECTION 3 | Testing of Hide Powder | 38 |
| SECTION 4 | Determination of Sulphur Dioxide in Bleaching Extracts | 42 |
| SECTION 5 | Determination of Iron and Copper in Vegetable Tanning Extracts | 46 |
| SECTION 6 | Analysis of Vegetable Tanned Leather | 52 |
| SECTION 7 | Determination of Acidity of Vegetable Tanned Leather | 78 |
| SECTION 8 | Neutralisation Value (Buffer Capacity) of Vegetable Tanned Leather | 84 |
| SECTION 9 | Analysis of Chrome Tanned Leathers and Chrome Tanning Materials | 86 |
| SECTION 10 | Analysis of Oils, Fats and Waxes | 100 |
| SECTION 11 | Analysis of Sulphated Oils | 118 |
| SECTION 12 | Analysis of Sodium Sulphide | 128 |
| SECTION 13 | Analysis of Lactic Acid | 130 |
| SECTION 14 | Determination of Colour Tolerances | 132 |
| SECTION 15 | Determination of Fastness to Washing of Coloured Leather | 140 |
| SECTION 16 | Determination of Fastness to Daylight of Coloured Leather | 142 |
| SECTION 17 | Physical Testing of Leather | 154 |
