CONTENTS

| 1. Industrial packaging in paper and board | 1 |
|---|-----|
| 2. Packaging hazards | 13 |
| 3. The stress – strain behaviour of paper | 39 |
| 4. The effect of relative humidity and temperature on the physical properties of paper 43 | |
| 5. Wet strength papers | 53 |
| 6. Stretchable papers | 63 |
| 7. Biological aspects of packaging with paper and board | 71 |
| 8. Adhesion theory | 79 |
| 9. Adhesives used in packaging | 93 |
| 10. Organic coatings and laminates | 103 |
| 11. Aluminium foil and foil laminates as protective packaging | 117 |
| 12. The testing of packaging boards | 129 |
| 13. Properties of boards required for folding cartons | 143 |
| 14. Corrugated containers | 165 |
| 15. Solid fibreboard containers | 173 |
| 16. Multiwall paper sacks – a general assessment | 179 |
| Index | 195 |
