

Contents

| | |
|-------------------|------|
| List of tables | vii |
| List of figures | viii |
| Executive summary | ix |

1

Introduction 1

| | |
|---------------|---|
| Abbreviations | 4 |
|---------------|---|

2

Energy policies affecting the forest products sector 5

| | |
|-------|---|
| Notes | 7 |
|-------|---|

3

The global energy situation in 2008 9

| | |
|----------------------|----|
| Overview | 9 |
| Global warming | 15 |
| Developing countries | 17 |
| Notes | 17 |

4

Current conventional pulping, papermaking and energy practices 19

| | |
|---|----|
| Integrated pulping and papermaking operations | 19 |
| Energy considerations | 23 |
| Combined heat and power | 29 |

| | |
|---------|----|
| Pulping | 30 |
|---------|----|

| | |
|-------------|----|
| Papermaking | 34 |
|-------------|----|

| | |
|---------------------------------------|----|
| Alternative paper drying technologies | 38 |
|---------------------------------------|----|

5

Disruptive technologies that can impact energy efficiency and conservation 41

| | |
|--|----|
| Fibre engineering | 43 |
| Biological fibre treatments | 46 |
| Fibre summary: energy reduction/efficiency opportunities | 49 |
| Process control | 50 |

Impact on energy 50

Advanced mill control 52

| | |
|--------------------|----|
| Machine operations | 54 |
|--------------------|----|

Manufacturing and converting 54

Alternative forming processes 55

Nanotechnology and the pulp and paper industry 57

Machine wear protection 59

| | |
|-------|----|
| Notes | 61 |
|-------|----|

6

Biorefining and gasification 63

| | |
|--|----|
| Biorefining (biomass refining) | 63 |
| Renewable energy resources | 65 |
| Black liquor gasification | 66 |
| Black liquor gasification combined cycle | 68 |
| The Princeton study: a cost/benefit assessment of gasification-based biorefining | 70 |

Commercial implementation 85

RSE Pulp & Chemical, LLC 87

NewPage Corp. 88

Flambeau River Biofuels LLC 88

Mascoma Corp. 88

Notes 89

7

Conclusions 91
