

CONTENTS

1.Fundamentals of spinning	1
2. Melt spinning	25
3. Solution spinning	65
4.Spinning for nonwovens	105
5. The spinning of highly aesthetic fibers	115
6. Fiber spinning of anisotropic polymers	130
7. Spinning of thermotropic liquid – crystal polymers	160
8. Gel spinning processes	172
9. Spinning of ultra – fine fibers	187
10. Spinning of optical fibers	208
Appendix : Microscopic views of shingosen	225
Subject index	254
Company index	257
Trade name index	258
