

CONTENTS

**Part I. General processing of blends**

|   |   |
|---|---|
| Chapter I. Properties of blends and methods of processing | 3 |
|---|---|

**Part II. Blends containing natural fibres**

|                |    |
|----------------|----|
| Chapter 2 Wool | 67 |
|----------------|----|

**Part III. Blends containing man – made fibres**

|   |     |
|---|-----|
| Chapter 3 Viscose rayon                               | 79  |
| Chapter 4. Modified viscose rayons                    | 119 |
| Chapter 5. Acetate                                    | 126 |
| Chapter 6. Cuprammonium rayon                         | 163 |
| Chapter 7. Regenerated protein fibres                 | 166 |
| Chapter 8. Acrylic fibres                             | 189 |
| Chapter 9. Modified acrylic fibres                    | 239 |
| Chapter 10. Polyester fibres                          | 252 |
| Chapter 11. Polyamide fibers                          | 306 |
| Chapter 12. Polyvinyl , chloride fibres               | 327 |
| Chapter 13. Metallic yarns                            | 341 |
| Chapter 14. Elastomeric fibres                        | 346 |
| Chapter 15. Polypropylene                             | 351 |
| Appendix I Fibres and manufacturers                   | 355 |
| Appendix 2. Dye and chemical manufacturers and agents | 359 |
| Appendix 3. Classes of dye and manufacturers          | 360 |
| Index   | 363 |
