## INTRODUCTION

xi

## 1. RAW MATERIALS FOR COATING

1

- 1.1 Solutions, 1
  - 1.1.1 Resins, 2
    - 1.1.1.1 Polyurethanes, 2
    - 1.1.1.2 Rubber-type elastomers, 9
    - 1.1.1.3 Water-soluble and dispersible resins for warp sizing, 13
    - 1.1.1.4 Polymers used for surface finishing compositions, 15
  - 1.1.2 Solvents; 16
  - 1.1.3 Auxiliary agents, 16
    - 1.1.3.1 Polyurethane additives, 16
    - 1.1.3.2 Rubber additives, 19
    - 1.1.3.3 Adhesion-promoting components, 20
    - 1.1.3.4 Additives for sizing compositions, 21
- 1.2 Emulsions and dispersions, 21
  - 1.2.1 Polyurethanes, 21
  - 1.2.2 Other resins in the form of dispersions, 23
  - 1.2.3 Auxiliary agents, 24
- 1.3 Plasticsols, 24
  - 1.3.1 Polyvinyl chloride, 24
  - 1.3.2 Plasticizers, 29
  - 1.3.3 Auxiliary agents, 37
- 1.4 Other raw materials for coating, 41
  - 1.4.1 Polyurethanes, 41
  - 1.4.2 Polyvinyl chloride, 43
  - 1.4.3 Other materials for coating, 49
- 1.5 Textile materials, 50
- 1.6 Release papers, 58
- 1.7 Summary of polymer properties, 61
- References. 61

## 2. MACHINES AND EQUIPMENT

63

- 2.1 Equipment for compounding, 63
- 2.2 Coating units, 70
- 2.3 Web transporting systems, 78

2.4 Heating units,	81	
2.5 Auxiliary equipment,	89	
2.6 Surface finishing equipment,	94	
2.7 Equipment for other coating processes,	97	
2.8 Process control and regulation,	106	
2.9 Air cleaning and solvent recovery systems,	106	
References,	109	
<b>3. THE SCOPE OF APPLICATION OF COATING METHODS</b>		<b>110</b>
References,	121	
<b>4. PRODUCT DEVELOPMENT</b>		<b>122</b>
4.1 Tensile strength and elongation,	122	
4.2 Tear strength,	126	
4.3 Interlayer adhesion,	129	
4.4 Properties of joins and their formation,	138	
4.5 Compatibility with other materials,	144	
4.6 Dimensional stability,	145	
4.7 Weight,	146	
4.8 Abrasion resistance,	147	
4.9 Elasticity,	150	
4.10 Burning behavior,	154	
4.11 Effects of temperature,	156	
4.12 Thermal properties of coated materials,	157	
4.13 Optical properties of coated materials,	162	
4.14 Aging properties,	164	
4.15 Effects of chemicals,	165	
4.16 Cleaning,	166	
4.17 Water and water vapor permeability,	168	
4.18 Air permeability,	172	
References,	173	
<b>5. MANUFACTURING LINES</b>		<b>175</b>
References,	186	
<b>6. RHEOLOGY OF COATING PROCESSES</b>		<b>188</b>
6.1 Rheological properties of coatings related to composition,	188	
6.2 Rheology in various coating systems,	197	
6.3 Rheology of defect formation,	202	
6.4 Rheological changes on curing,	207	
6.5 Sintering,	211	
6.6 Structural changes in textile materials,	214	

6.7 Deformation, fatigue, and rupture,	216
References,	218
<b>7. THE STRUCTURE OF COATED MATERIALS</b>	<b>221</b>
7.1 Interactions between bodies,	221
7.2 Interaction in polyblends,	222
7.3 Chains at interfaces,	224
7.4 Molecular diffusion and adhesion,	225
7.5 Surface roughness and adhesion,	227
7.6 Mechanical forces at the interphase,	228
7.7 Resin distribution in textile material,	229
References,	243
<b>8. HEAT AND MASS TRANSFER IN COATING PROCESSES</b>	<b>245</b>
8.1 Diffusion in polymeric materials,	245
8.2 Bulk structural changes,	248
8.3 The moving boundary phenomenon,	249
8.4 Evaporative convection in minute drops,	249
8.5 Dependence of heat and mass transfer on material distribution,	254
8.6 Thermal conductivity of liquids and solids,	256
8.7 Melting of polymeric materials,	257
8.8 Heat transfer by convection and radiation,	261
8.9 Free-volume model of mass and heat transfer,	263
8.10 Material geometry and heat transfer,	266
8.11 Comparison of typical heating methods,	269
References,	269
<b>9. PROCESS TOXICITY</b>	<b>271</b>
9.1 Toxicity of materials used in coating processes,	271
9.1.1 Resins,	272
9.1.2 Solvents,	275
9.1.3 Auxiliary agents,	276
9.2 Effect of safety regulations on production of coated materials,	280
9.3 Toxicity of gases from combustion of coated materials,	281
9.4 Water pollution,	285
References,	288
<b>10. INDUSTRIAL WASTES</b>	<b>290</b>
10.1 General considerations and reasons for materials recycling,	290
10.2 Primary recycling,	295
10.3 Mixed plastic waste recycling,	295

- 10.3.1 Size reduction, 296
- 10.3.2 Separation, 298
- 10.3.3 Methods of raw materials recovery, 302
- 10.3.4 Secondary recycling of **mixed** materials, 304
- 10.4 Waste pyrolysis and gasification, 307
- 10.5 Other methods of tertiary recycling, 310
- References, 313

**INDEX**
