

CONTENTS

Preface	5
Acknowledgements	7
Terms and definitions	13
Conversions	14
Part 1. World production and classification of textile fibres	
Classification of textile fibre products	17
Classification of textile fibres	19
Part 2. Natural polymer man – made fibres	
Regenerated cellulose fibres	22
Cellulose ester fibres	35
Regenerated protein fibres	43
Miscellaneous natural polymer man – made fibres	50
Part 3. Synthetic polymer man – made fibres	
Polyamide fibres	56
Polyester fibres	68
Acrylic fibres	77
Modacrylic fibres	91
Nitril and nitril alloy fibres	96
Polyvinylidene chloride fibres	101
Polyvinyl chloride fibres	110
Polyvinyl alcohol fibres	115
Polyethylene fibres	119
Polypropylene fibres	124
Fluorocarbon fibres	128
Polyurethane fibres	131
Part 4	
Inorganic fibres	
Glass fibres	135
Mineral wools	141
Refractory fibres (Ceramic)	145
Refractory fibres (silica)	148
Miscellaneous refractory fibres	152
Metallic fibres	154
Metallic yarns	157
Part 5. Textured yarns	
Definitions	160

Classification	161
Trademarks	162
Crimping	164
Part 6. Identification	
Identification and solubilities of fibres	173
Part 7. Photomicrographs	179
Part 8. X- Ray diffraction photographs	223
Part 9. Bibliography	
General	242
Natural polymer man – made fibres	243
Synthetic polymer man – made fibres	257
Textured yarns	274
Inorganic fibres	275
Part 10.	
World man – made fibre producers	281
Index	300
