

CONTENTS

1. Polyurethanes and fungal attack : susceptibility and protection	1
2. Coating industrial fabrics by means of the melt roll process	10
3. Transfer coated urethanes	32
4. One hundred percent solids polyurethanes	36
5. Polyurethane latex coatings an alternative to solvent emissions	43
6. Formulation requirements for urethane fabric coatings	51
7. The structure – property relationships of polyurethanes designed for coated fabrics	65
8. Artificial leather industries in far East – A Survey	78
9. Water dispersible urethanes	83
10. Industrial TPU applications in Europe	98
