

CONTENTS

1. The cordage fibres : their classification use , structure ,and properties	1
2. The cordage fibres : their growth , processing and grading characteristics	35
3. Fibre preparation	68
4. Yarn spinning	95
5. Rope and cordage twisting , laying, and braiding	119
6. Finishing operations	154
7. Control of quality : factors of variation	176
8. Production analysis and control	198
9. Rope properties	212
10. Protection against environment deterioration	254
11. Ropes and cordage in service	290
12. Rope , cordage ,and twine : Identification by use	304
Index	353
