

CONTENTS AND SUBJECT INDEX

INTRODUCTION	1
Problems and Trends	2
Cost of Textile Waste Treatment	4
Fibers Involved	4
Sizing	5
Scouring	6
Mercerizing	6
Bleaching	8
Dyeing	8
Finishing	9
COTTON TEXTILE MANUFACTURE	12
Desizing	13
Scouring	14
Bleaching	14
Mercerizing	15
Dyeing	16
Cotton Waste Treatment	19
In-Plant Measures	21
Treatment Efficiencies	22
WOOL PROCESSING	25
Wool Top Making	25
Wool Blend Finishing	28
Wool Waste Treatment	33
Treatment Efficiencies	36
Industrial Pollution Control Processes	38
American Chemical Paint Company Process	38
Daito Woolenspinning Process	44
Kanematsu-Takuma Process	48
Kurita-Unitika Process	54
Rohm and Haas Process	58
U.S.D.A. Process	60
Woolcombers Process	67
SYNTHETIC FIBER PROCESSING	73
Wet Processing Wastes from Synthetic Fibers	76
Synthetic Fiber Waste Treatment	76
Treatment Efficiencies	81

ACETATE RAYON	83
Polymer Production	86
Waste Problems	86
Waste Reduction Through Process Change	86
Fiber Manufacture and Finishing	86
Celanese Corporation Process	86
VISCOSE RAYON	89
Zinc Precipitation and Recovery	91
American Enka Process	92
Viscose Treating Solution Recovery	92
Midland-Ross Process	92
ACRYLICS AND MODACRYLICS	97
Polymer Raw Materials	97
Du Pont Process for HCN Recovery	97
Sohio Process for Acrylonitrile Wastewater Treatment	99
Ugine Process for Acrylic Ester Manufacture	106
Polymer Processes	107
Fiber Manufacture	107
Fabric Finishing	108
POLYAMIDES	110
Polymer Raw Materials	110
Adipic Acid Wastes	110
Asahi Process for Nitric Acid Recovery	111
Hexamethylene Diamine Wastes	118
Inventa Process for Wastewater Treatment	120
Monsanto Process for Catalyst Recovery	122
Monsanto Process for Wastewater Purification	131
Polymer Processes	139
Polymer Scrap Recovery	139
Du Pont Process	139
Fiber Manufacture	145
Fabric Finishing	146
POLYESTERS	148
Polymer Raw Materials	148
Ethylene Oxide Process Wastes	148
Polymer Processes	149
Day and Zimmermann Process for Glycol Recovery	149
Polymer Scrap Recovery	154
Du Pont Process	154
Fiber Manufacture	158
Fiber Industries Wastewater Recovery Process	160
Construction Costs	170
Fabric Finishing	174
POLYOLEFINS	176
Polymer Raw Materials	176
Gulf Oil Process for Hydrocarbon Separation from Wastewater	176
Polymer Processes	186
Phillips Petroleum Process for Solvent Recovery from Off-Gases	187
Fiber Manufacture	191

TEXTILE MILL WASTE REDUCTION BY IN-PLANT CONTROL	193
Reduction of Wastewater Volume	193
Reduction of Process Chemicals	194
Recovery and Reuse of Process Chemicals	194
Process Modifications	195
Substitution of Chemicals	196
Good Housekeeping Practices	197
JOINT MILL-MUNICIPAL WASTE TREATMENT	199
Clemson Case Studies	201
Structure of Waste Treatment Costs	204
Total Treatment Costs	205
Treatment Cost Comparisons	206
Possible Causes of Cost Differences	209
The Problem of Estimating Total Waste Treatment Costs for Textile Plants	213
Summary and Conclusions	214
TEXTILE MILL WASTE TREATMENT PLANTS	218
Preliminary and Primary Treatment	218
Equalization	219
Neutralization	220
Disinfection	221
Screening and Sedimentation	222
Secondary Treatment - Aeration	223
Secondary Treatment - Chemical	224
Dan River Mills Process	225
Reichhold Chemicals Process	233
Secondary Treatment - Physical	235
Du Pont Incineration Process	235
Secondary Treatment - Biological Methods	242
Ponds and Lagoons	245
Activated Sludge Process	245
Trickling Filters	249
Sludge Disposal	251
Tertiary Treatment	252
Waste Treatment Technique Summary	255
TEXTILE CHEMICAL EFFLUENT CONTROL	257
Pollution Survey by Analyzing Wet Processing Operation	258
Removal and Recovery of Caustic	260
Argentine Process	260
Removal of Sizing Materials	261
Bode Process	263
N.C. State Process	266
Shell Oil Process	266
Union Carbide Process	270
Removal of Dyes	270
Crompton & Knowles Process	273
Fram Corporation Process	277
Removal of Detergents	284
Broadway Research and Development Process	284
Diamond Alkali Process	291
FMC Process	292
General Mills Process	292
Treatment of Textile Effluents Summary	304

Contents and Subject Index

FUTURE TRENDS	306
Research Needed	306
Study of Electrolytic Treatment of Textile Waste	306
Analysis of Space Requirements of Waste Treatment Plants	306
Research on Reverse Osmosis Processes	307
Research on Sludge Handling and Disposal	307
Development of Improved Design Parameters	308
Trends in Plant Operations	308
REFERENCES	310
COMPANY INDEX	321
U.S. PATENT NUMBER INDEX	321
INVENTOR INDEX	322
